Case Report

Case No. 2099801393
Report Date/Time: 10/24/2020 9:11:00 PM
Reporting Officer: Pullum, Casey

NARRATIVE:

Pullum, Casey
10/26/2020 12:57:55 PM

SUMMARY:

This report details a traffic stop and subsequent arrest of GASAWAY and POPULIS for possession of Methamphetamine. This report will also detail a search warrant executed at GASAWAY's residence immediately following the traffic stop and arrest.

ASSISTING OFFICERS WITH TRAFFIC STOP:

Deputy Connor Corbin
301 M-33
Mio, MI 48647

Deputy Don Mclean
301 M-33
Mio, MI 48647

TRAFFIC STOP:

11/24/2020 at approximately 9:11pm I conducted a traffic stop on a red Chevrolet Monte Carlo SS traveling northbound on M-33 just north of Kittle road in Comins Township, Oscoda County. During my observation of the vehicle I noticed it swerving within its lane and crossed the centerline twice within .5 mile distance. The vehicle did not have a registration plate displayed.

CONTACT WITH GASAWAY/POPLULIS:

I approached the driver's window and contacted a male later identified as GASAWAY. I informed him of the reason for the stop and asked for his driver's license, registration and proof of insurance. GASAWAY stated he doesn't have a plate because he just bought the vehicle about a month ago and hasn't been able to get into the Secretary of State. He states he was swerving because his vehicle needs an alignment. He searches for his wallet and states he cannot find it. I obtain a verbal name from GASAWAY as Michael Joe Gasaway and states his DOB is 04/17/1986. I asked the passenger, later identified as POPULIS for her information and she states her name is Hailey Maniaci. I asked her to spell her last name and she starts by spelling M-A-N-I...and pauses as if she is thinking about how to spell it. I asked "you forgot how to spell your own last name"? She stated, I didn't do anything wrong so why are you asking for my information. I stated "you are not wearing your seatbelt". She replied "I just took it off". She then refused to give any more information. GASAWAY stated he was going to Kneeland road to a friend's house to see if he can help with his dog's ear. GASAWAY had his dog in the back seat and the right ear was swollen on the dog. GASAWAY states he doesn't have any paperwork for the vehicle including his title. He states his title is in his wallet. He states there is insurance on the vehicle but doesn't have any proof. He requested to contact his mom to get a copy of the proof of insurance.

It was later determined Maniaci was a fake name for POPULIS.

LAW ENFORCEMENT INFORMATION NETWORK:

I returned to my vehicle and using Oscoda County dispatch I gave GASAWAY's information. Dispatch advised his driver's license was an expired TIP. GASAWAY was suspended by Alcona county and placed on restrictions and the time frame had passed however it doesn't appear he has paid the reinstatement fee.

VEHICLE INFORMATION:

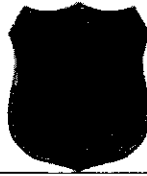

I ran the VIN off of the vehicle and it came back titled to:
Allison Marie Barth
6750 Reilly Road
Houghton Lake, MI 48629

EIV: Y

2003 Chevrolet Two Door

VIN: 2G1WX12KX39410463

**DNR - DEPARTMENT OF
NATURAL RESOURCES**
Case Report

Case No. 2099801393
Report Date/Time: 10/24/2020 9:11:00 PM
Reporting Officer: Pullum, Casey

STANDARDIZED FIELD SOBRIETY TESTS:

I requested GASAWAY step out of the vehicle so I could conduct SFST's to determine if he was impaired. I instructed GASAWAY stand at the front of my patrol vehicle facing away. GASAWAY pulled up his left pant leg and adjusted an elastic knee brace. He stated he has a bad knee. He pulled the knee brace from his ankle up around his knee.

HORIZONTAL GAZE NYSTAGMUS:

Instructions:

I requested GASAWAY to look at the tip of my pen (stimulus) while I check his eyes. I asked him to follow the stimulus with his eyes only and not move his head as I move the pen from side to side. GASAWAY stated he understood the instructions. No resting nystagmus present. Pupils appeared constricted.

HGN Test:

Lack of Smooth Pursuit:

I checked the left eye and right eye with two passes each.

Left eye: Negative

Right eye: Negative

****Lack of smooth pursuit was not present in either eye.**

Nystagmus at Maximum Deviation:

I checked the left eye and right eye for distinct and sustained nystagmus at maximum deviation with two passes each and holding for a minimum of 4 seconds at maximum deviation. Distinct and sustained nystagmus was not present at maximum deviation in either eye with each pass.

Onset Prior to 45 Degrees:

I checked the left eye and right eye with two passes each.

Left eye: Not Present

Right eye: Not Present

Left eye: Not Present

Right eye: Not Present

WALK AND TURN TEST:

Instructions:

I demonstrated the starting position for the walk and turn test. I then asked GASAWAY to stand in the starting position with his right foot in front of his left foot and the heel of his right foot touching the toe of his left. I advised GASAWAY to keep his arms to his side while I gave the instructions. I instructed him not to begin until I told him to. I instructed GASAWAY to take 9 heel-to-toe steps following an imaginary line on the paved portion of the roadway. I continued with the instructions by stating 'on the 9th step to keep his front foot planted and take a series of small steps with his other foot turning around then take 9 heel-to-toe steps back, keeping his arms at his side the entire time and counting his steps out loud'. I demonstrated the walk and turn test. I asked GASAWAY if he understood the instructions. He said "yes" then he began the test.

Walk and Turn Results:

GASAWAY stepped off of the starting position two times during the instructional phase.

GASAWAY winced in pain on each step during the test however expressed no pain outside of the test.

GASAWAY stopped walking and paused at each step.

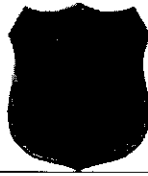

GASAWAY stumbled and stepped off of the line on the 6th and 7th steps of the first 9 steps.

GASAWAY asked for instructions on if and how he should turn around.

GASAWAY walked the 9 heel-to-toe steps back slowly then continued to 12 steps stating, "I'll do a few more for good measure."

ONE LEG STAND:

**DNR - DEPARTMENT OF
NATURAL RESOURCES**
Case Report

Case No. 2099801393
Report Date/Time: 10/24/2020 9:11:00 PM
Reporting Officer: Pullum, Casey

Instructions:

I instructed GASAWAY to stand with both feet together and arms to his side while I gave the instructions for the next test and not to begin until I instruct him to do so. I instructed GASAWAY to elevate one foot approximately 6" off the ground. I informed him that he could pick either foot and that he would need to keep the foot parallel to the ground. I instructed GASAWAY to keep both legs straight and his arms at his side during the test. I instructed him to look at his toe and count out loud. "one-thousand-one, one-thousand-two, etc. until I tell him to stop" I asked GASAWAY if he understood the instructions and he said "yes". I then demonstrated the test for him.

One Leg Stand Test:

GASAWAY started by elevating his left foot, and immediately placed it back on the ground wincing in pain. He stated, "I'll try my other one not sure which one will be better." He continued by lifting his right foot and picked it up for a few second before placing it on the ground and picking it back up. He hopped on his supposed sore knee and stumbled and again placed his foot down. At this point the 30second time limit was up.

No PBT was offered.

CONSENT SEARCH:

After completing the SFST's I asked GASAWAY if there was anything illegal in the vehicle such as drugs or firearms. He stated, "there shouldn't be anything illegal in there." I then asked for permission to search the car. He stated, "go ahead."

Deputy Corbin asked POPULIS to exit the vehicle and asked her to stand next to GASAWAY in front of my patrol vehicle. POPULIS stated there may be a needle in her purse with a red cap. She stated she uses those to administer blood thinners in her thigh due to having cystic fibrosis.

I began searching the vehicle in the driver's seat area. I searched the entire driver's area then moved to the center console. The portion of the center console behind the gear selector did not contain any contraband however the portion of the center console in front of the gear selector located under the dash contained two hypodermic needles and syringes. One of the syringes was filled to approximately 10 units with a clear liquid. I removed both items and showed them to GASAWAY and POPULIS. Both denied knowing the syringes were in the vehicle and denied ownership. Both GASAWAY and POPULIS were taken into custody and advised they were being detained at this point until the liquid was tested. POPULIS was placed in the back of Deputy Corbin's patrol vehicle.

I continued my search locating a blue digital scale with a white residue in the bowl and a black zipped case containing a hypodermic needle and syringe along with an unused glass pipe in a wrapper.

INTERVIEW POPULIS:

After completing my search of the vehicle, I read POPULIS her Miranda rights through the cracked window of the patrol vehicle and she waived her rights. She was pleading with me not to take her to jail. She stated, "I'll tell you everything." She stated the drug will come back as Meth not Heroin. She stated just as they got pulled over GASAWAY grabbed both syringes and put them in the center console and stated, "There's two rigs in here." She stated GASAWAY is a meth cook and all of the stuff is at his house. I inquired more about his residence. She stated she was picked up at her residence in Lupton this evening and driven to the gas station in Mio. He then took her to his house and she went inside with him to his bedroom where all of his meth components are located. She stated he threw a bunch of stuff in the fire pit out behind the house as well.

TEST OF SUBSTANCE:

Using a Methamphetamine field test kit, I placed a few drops of the clear liquid located in syringe into the test kit and it came back positive for Methamphetamine.

I informed both GASAWAY and POPULIS they were under arrest for possession of Methamphetamine.

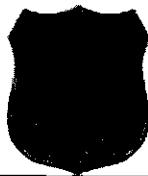

VEHICLE DISPOSTION:

Deputy Mclean contacted dispatch via radio and requested Blair's Service to tow the vehicle. A vehicle impound report was completed.

TRANSPORT:

At 10:27pm I began transport of GASAWAY to the Oscoda County Sheriff's office for holding. Deputy Corbin transported POPULIS. Starting Mileage 130330

989-345-2304

ENTRY TO RESIDENCE:

10/25/2020 at approximately 1:11am, with a signed search warrant in hand, we arrived at 209 Cass street Mio, MI. We attempted to use keys from the vehicle to access the residence but they did not work. We knocked and announced, no movement in the residence and all lights were off. Deputy Corbin kicked the door until it opened.

LOCATE SUBJECT IN RESIDENCE:

A quick search of the residence revealed a female in the residence in a bedroom on the first floor. Female was in a bed with a Pitbull type dog next to her. The female was identified as Margaret Annmarie GASAWAY 10/08/1962. POPULIS informed us she lived at the residence and that she has warrants. Prior to executing the search warrant a LEIN search was conducted on Margaret GASAWAY. It returned with two active warrants out of Iosco County. Oscoda County dispatch sent a LEIN message to confirm the warrants and asked if they would like her picked up. They stated the warrants were valid and they would take her. Margaret GASAWAY was taken into custody on the warrants and

**DNR - DEPARTMENT OF
NATURAL RESOURCES**
Case Report

Case No. 2099801393
Report Date/Time: 10/24/2020 9:11:00 PM
Reporting Officer: Pullum, Casey

was placed in the back of Deputy Mclean's patrol vehicle. A thorough search of the residence revealed multiple drug paraphernalia items such as glass pipes, used and unused, razor blades, empty Coleman fuel container, cut lithium batteries, coffee filters with white residue, and butane torches.

SEARCH AND ITEMS SEIZED:

Location: Firepit

#1: (4) Claritin-D 24hr blister packs / Coffee filter with white residue/ 6 Mtn. Dew bottles, 4 Powerade bottles, Lithium Strips

Location: Margaret GASAWAY's bedroom

#2: Silver metal container containing a folded coffee filter with residue

#3: DTE Energy bill containing the name of Michael GASAWAY

#4: Purple container with white power and cloth

#5: Cell Phone - Samsung - Black w/ charger with blue pouch attached to back containing \$24.00 in US currency, Bridge Card and MI Health Card for Margaret GASAWAY. Also, a plastic bag with white residue.

Location: Crawl space under residence

#6 (1) bottle liquid drain cleaner / (2) bottles Lye / (1) box containing cut cold packs

STING officers assisted with removal of hazardous items from the house and firepit. See their report for details.

10/25/2020 at approximately 4:00 am Oscoda County deputy Corbin transported Margaret GASAWAY to Iosco County jail. En route to the jail Margaret Gasaway asked the deputy what happened to "Sam?". He asked who Sam was and she stated Sam was with Michael (GASAWAY) when he was stopped. The deputy stated Oh you mean Hailey? She said No, that's her step-sister, her name is Samantha Populis. Deputy Corbin informed me via radio of the actual name. I contacted dispatch via radio and asked them to attempt to locate her in LEIN and print pictures of both Samantha POPULIS and Hailey Maniaci. The photo of POPULIS matches the female passenger that is now in custody. Pill bottles were located in the residence with the name Samantha POPULIS and a female hair brush was located in Michael GASAWAY's bedroom. POPULIS states the dog that was in the vehicle during the traffic stop is a mutually owned dog. POPULIS placed 209 Cass street on as her primary residence on her intake form for the jail.

A copy of the search warrant was left on the kitchen counter along with a copy of the return and tabulation.

EVIDENCE:

A chain of custody was created for all evidence seized from the vehicle and the house. 10/27/2020 at approximately 1:15pm I arrived at STING office in West Branch and obtained an empty vial. Using the seized syringe from the vehicle I placed the clear liquid into the vial due to MSP crime lab not taking needles and syringes. The syringes were photographed and disposed of in a sharps container. The vial was placed in the evidence bag along with a blue digital scale.

At approximately 2:23pm I arrived at the MSP crime lab in Grayling, MI. The vial and blue digital scale were dropped off to the lab along with a metal container containing a folded coffee filter, purple plastic container containing a powder substance, whole coffee filters with white residue and Claritin-D blister packs. Chain of custody was signed and items were left with the lab staff.

Remainder of evidence was then taken to the DNR District office evidence storage in Roscommon, MI.

All digital evidence taken was uploaded to Axon.

NATIONAL PRECURSOR LOG EXCHANGE (NPLeX):

10/27/2020: STING provided NPLeX reports on Michael GASAWAY, Margaret GASAWAY and Samantha POPULIS.

- Michael GASAWAY has no record of purchases

- Margaret GASAWAY has numerous purchases of RA Suphedrne 12HR (20ct), with last being 10/16/2020 at 6:23pm from Rite Aid in Mio, MI

- Samantha POPULIS has one recorded purchase of RA Loratadine D 24HR 15ct on 4/02/20 at 11:41am from Rite Aid in Mio, MI

STATUS:

Closed.
