

Officer Narrative

Case Number: 2099801393 Entered On: 10/27/2020 4:36:01 PM
Subject: 35001/Possession/GASAWAY/MANIACI/Pullum Entered By: Bellville, Brad

Narrative:

PREDICATION

On October 24, 2020 at approximately 10:52 PM I received a call on my department issued cell phone from Conservation Officer Casey Pullum asking for assistance with a search warrant at a residence in Mio Michigan. The search warrant was for a residence believed to be a site for the manufacturing of methamphetamines.

OFFICER ACTIONS/OBSERVATIONS

On October 24, 2020 at approximately 11:23 PM I arrived at the Oscoda County Sheriff's Office and met with all officers involved in the search warrant. A full briefing was given for the search warrant which was being executed to search for a multitude of evidence to include the manufacturing of methamphetamines. At approximately 1:10 AM Conservation Officers Casey Pullum, Jesse Grzechowski, myself and two Oscoda County Sheriff's Deputies arrived at 209 Cass Street and made entry into the residence. Once entry was made, CO Grzechowski and I cleared the two bedrooms upstairs while the other officers made contact with a female downstairs. The female was the only subject found in the residence. After she was arrested on felony warrants out of Iosco County and placed in an Oscoda County Sheriff's Office patrol car, CO Grzechowski and I checked and cleared the crawl space under a trap door in the living/dining room.

I was assigned to a search team with CO Grzechowski. We started by searching all outbuildings and did not find any evidence relating to the search warrant. We then searched the fire pit in the back yard and located an empty canister of Coleman fuel, empty packages of Claratin-D, coffee filters and Energizer lithium batteries that had been cut open. We also found multiple bottles of Mountain Dew and Powerade with a white substance in the bottles, several bottles were melted, and one was smoking. CO Grzechowski photographed all materials then we continued into the house to search. We started our search in the middle bedroom where the female that was arrested on scene was located upon entry. CO Grzechowski and I located a multitude of drug paraphernalia in the nightstand drawers on the right side of the bed. The drug paraphernalia included many different styles of glass pipes, a box containing a white powdery substance, a small mirror with razor blades and a tin container containing a folded coffee filter. We also located a cut plastic bag with what appeared to be a white powder substance in the bottom of a laundry basket and a glass pipe between the mattresses on the right side. Each item was photographed and brought to a central location in the house for documentation. A search of the upstairs bedrooms did not locate any evidence. CO Grzechowski and I then assisted CO Pullum with searching the front bedroom and located several more pipes in the top of the closet, an Energizer lithium battery that had an end pried open and a cup containing several hypodermic needles on the night stand. Evidence was photographed and brought to a central location in the house for documentation.

At approximately 5:00 AM the house was secured, and all law enforcement personnel cleared the scene.
